

# LABELLING INSTRUCTIONS FOR CANS

10/2022

- Labelling cans is permitted for small product batches
- Cans can be labelled either fully or partially
- Because the barcode is scanned automatically by reverse vending machines, special attention must be paid to the quality of label printing (barcode) and adhesion
- Can markings according to marking instructions
  - Barcode, deposit symbol, material symbol
  - Size, quality
- The labelled can is accepted into the return system according to normal practice
  - Send a sample to Palpa when previously accepted printed can will be labelled

# LABEL MATERIAL ALTERNATIVES (fully or partially labelled can)

10/2022

- sales max. 200 000 cans/year
